Experience

Mastermind Toys | *Toronto, Ontario*   **Sept 2021 - Dec 2021**

- Put away received packages into the warehouse using an RF scanner. Organized and placed packages in the appropriate bins. Packages to be shipped were placed on skids and loaded into the shipping truck.
- Trained and mentored new hires on job responsibilities and workplace safety.

Projects

Clothing Store *(HTML5, CSS3, JavaScript, React)*   Repo | Live   **Dec 2021**

- Organized and determined the project design from the planning phase to deployment and broke down the project requirements into small manageable tasks.
- Built multiple routes to navigate users to different pages and implemented the state logic to handle the "add to cart" functionality. Learned React Router fundamentals and advanced concepts such as dynamic urls and nested routes.

Resume Builder *(HTML5, CSS3, JavaScript, React)*   Repo | Live   **Nov 2021**

- Deconstructed the project idea into components and translated it into the file structure. Implemented the design through the collaboration of a UI/UX designer.
- Created stateful components which updated the UI when state changes were detected. Learned how to build a CRUD application using functional components and hooks with the incorporation of React's best practices.

Weather Application *(HTML5, CSS3, JavaScript)*   Repo | Live   **Sept 2021**

- Determined the project requirements and broke it down into smaller tasks. Decided the tools to use for the project.
- Fetched data from Open Weather's API using async/await and JavaScript's built-in fetch function. Learned how to fetch data from an API and to display the retrieved data to the browser using DOM manipulation.

Technical Skills

Programming Languages: HTML, CSS, JavaScript, React, Sass, Python, MATLAB
Tools: Git, Github, Webpack, Parcel, VS Code, Jest

Education

Ryerson University   **Toronto, ON**

Bachelor of Engineering (BEng) in Electrical Engineering   Sept 2015 - April 2020

Hobbies

PC Games

- Placed in the top 1% out of millions of players in games such as Valorant, League of Legends, Teamfight Tactics, and Apex Legends
